As the largest department in CCE, the Department of Mechanical and Industrial Engineering boasts some of the most distinguished engineers in the Sultanate of Oman among its alumni. This is because the department has a dynamic approach to change, embracing emerging fields of specialisation in mechanical and industrial engineering.

Our faculty are actively involved in research, and produce many published articles in referenced international journals. Our programmes prepare students in the field of mechanical, mechatronics, process, chemical, oil and gas, and industrial engineering.
Hear it from our Alumni:
Mohammed Hamoud Shinoon
Currently working in Petroleum Development of Oman

“The mechanical engineering programme that I took was very comprehensive with application of computers to the solution of mechanical engineering problems.”
