Welcome to postgraduate studies at Caledonian! The college is at the forefront of providing high quality masters programmes of international standard in Oman through academic collaboration with Glasgow Caledonian University (GCU) and collaboration with VIT University. The master degree programmes are well structured and delivered by experts from our partner universities and from faculty at CCE. Indeed, our thriving postgraduate teaching faculty at CCE is well known for its outstanding research and teaching and you will be supported by world-class staff and dedicated resources.
Career Development
Through our postgraduate programmes you will be well prepared for employment, career enhancement or a career in research. The college has a wide range of facilities and support services to assist our postgraduate students including a graduate laboratory.

Overview of Programmes
We currently offer two taught master degree programmes, providing an opportunity for in-depth study of your chosen field by combining teaching with research:

- MSc in Process Engineering (in academic collaboration with VIT University)
- MSc in Maintenance Management (in academic collaboration with GCU)

CCE is proud to have introduced these two unique programmes to Oman. They have been running successfully since 2008, producing graduates with managerial skills and requisite knowledge in the respective fields.

Length of Study
It takes a minimum of one year of fulltime study and up to two-and-a-half years of part-time study to complete a postgraduate degree in engineering.

Mode of Study
We offer Master courses in a flexible mode to balance study with employment or family commitments whilst still providing all the benefits and support enjoyed by fulltime students.

Eligibility Criteria
The basic entry qualification for MSc programmes is an honours degree or the equivalent in a science or engineering subject. If the medium of instruction of your bachelor degree is in a language other than English, you must demonstrate your linguistic ability through presentation of a current certificate showing IELTS Band 6 or above, or TOEFL with a minimum score of 550.

Interaction with Industry
Postgraduate programmes are delivered through guest lectures and case studies from industry. We encourage our students to choose their project from their workplace.
