At Caledonian we take pride in presenting many opportunities that you may not find elsewhere, from studying abroad to building personal and soft skills on an Outward Bound course. We also offer various opportunities for professional development through short courses for those already in employment.

Employability & Career Enhancement

Placement & Training
At CCE we offer help to you for placement and training with industry and other organisations. Students are placed for training in top industries to give them first hand practical exposure to the workplace and to enable them to be competent and productive in their academic studies. The college’s Placement and Training Cell (PTC) will also help you both during your studies and before your graduate to find employment and placement opportunities in reputed industries and organisations.

Career Information and Employment:
- We provide you with an opportunity to explore
  - Job availability in the market
  - Potential areas for higher studies
- We organise an annual Careers Fair for you to engage with company representatives from a range of industries
- Campus interviews are conducted for the recruitment of students

Student Internship & Training:
- We provide opportunities for you to undertake the following exciting activities:
  - Summer training, internship and placement in various organisations
  - International internship
  - Exchange programmes with affiliates and partner institutions
- Pre-Employment Guidance:
  - We provide you with support as you reach the end of your studies and start looking for a job through the following programmes and preparations:
Industry Inputs to Delivery:
We regularly arrange site visits and guest lecturers for our students’ benefit throughout their studies and help them to explore a project with specific industries.

Scholarship and Internship
At CCE we enhance the student experience by providing opportunities to enrich knowledge and through student scholarships and internships. These opportunities offer excellent ways to enhance your employability. Each summer, we identify students with strong academic credentials to train in advanced laboratories abroad with one of our partner universities in Germany, UK, France, Malaysia, India, USA and Australia. If you strive for one of these internships, it will provide an invaluable help in engaging with project work in your field of study. The main purpose of these internships is to encourage students to acquire skills and knowledge, gain international exposure and bridge the gap between theory and practice. Students have the following opportunities:

- PMA Student internship: Ten funded internships offered by P Mohammed Ali, Chairman of the Board of Directors at CCE
- GCU-Student exchange programmes: Five internships with limited funding, offered by Glasgow Caledonian University
- Sheik Salim Bin Hamed Al Fannah Al Araimi Scholarship:

This international student internship is given to twenty Omani students (on year by year basis).

- An annual scholarship for meritorious Omani nationals is offered to pursue postgraduate studies at Masters degree level through the Mohamed Bin Rashid Al Araimi memorial scholarship.

Caledonian Unit for Training and Professional Development (CuTPD)
This centre at CCE provides unique and dynamic training solutions for our corporate clients with the aim of becoming Oman’s preferred training provider for professional development. We take pride in our expertise to provide professional training programmes with course content and facilities that fulfill the requirements of our corporate clients in industry.

Our team of highly qualified professionals has a wealth of experience in delivering courses to a wide range of clients such as RCA, Ministry of Defence, Galfar Construction & Contracting Co, and OMIFCO, among others. We build bespoke engineering and management courses around client needs.

CCE’s training centre is committed to providing outstanding value and quality training solutions for the corporate marketplace through:

- Custom-designed training programmes
- Corporate consulting and research services
- Certificate programmes
- Continuing education programmes
- Short term courses

We offer a wide variety of blended courses for professional development in engineering and management areas covering mechanical, electrical, electronics, instrumentation, civil, process and chemical engineering, together with industrial management and IT fields.

Alumni
When you join Caledonian you join us for life! We are proud of our graduates and encourage them to contribute to the college and our CSR activities throughout their careers.

Corporate Social Responsibility (CSR)
At Caledonian, we recognise the importance of giving back to the community that has supported us over the years. To this end, we regularly organise awareness campaigns that promote student and community health and wellbeing; lend our facilities to selected charitable organisations and run an annual summer school for local school leavers interested in experiencing college life. We expect our students and our alumni to get involved in these activities and take a leadership role in organising charitable events.

Green Awareness
As part of our CSR, we have a strong commitment to the environment and ‘green-awareness’ is part of our mission, vision and values. You will notice that our campuses provide a leafy environment with many trees; what you may not have noticed is that our corridors are lit at night by solar panels on the roof. We have been commended in the national Green Awards for our activities in this area and we have sponsored a former alumna of CCE as our Ambassador of Environmental Awareness. This ambassador represented us as the first lady from Oman to set foot in Antartica and another former alumna was the first Omani man to set foot in the Arctic. We invite you to maintain our green credentials by your active interest in protecting the environment.
